

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC33140
Name	NSC-661583

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	
Formula	C <sub>15</sub> H <sub>26</sub> O <sub>6</sub>
MW	302.367
Storage	
Structure	 <p>The chemical structure of NSC-661583 is a branched molecule with three ester groups. It features a central carbon atom bonded to three other carbon atoms, each of which is part of an ester linkage. The ester groups are connected to propyl chains. The structure is shown in a skeletal format with labels H<sub>3</sub>C and CH<sub>3</sub> at the ends of the propyl chains.</p>
